The masked areas are meticulously hand trimmed using the newest, safest techniques. Within hours your vehicle will not only look better, it will be protected for life.

**AIR & WATER TIGHT**

...Permanently seals out mildew, rust, and corrosion

**TOUGH**

...Resists scratches, dings, gouges

**DURABLE**

...will not break down when exposed to fertilizers & corrosive materials

**SKID RESISTANT**

...Eliminates damage caused by load slippage

**A PERFECT FIT**

...Sprays on to the contour of a truck bed. Fine grain textured non-skid surface looks great. No runs or drips

**VERSATILE**

...Bonds permanently to virtually any surface, including steel, wood, aluminum, concrete, and fiberglass

**FLEXIBLE**

...tolerates extreme temperatures without cracking or warping, -60°F to +350°F

**QUIET RIDE**

...Forms a protective cushion between the cargo and the truck bed, reducing noise.

**ENVIRONMENTALLY SAFE**

...100% solvent-free polyurethane/polyurea

**MAINTENANCE FREE**

...No waxing, repainting or retightening required

**IMMEDIATE RESULTS**

...Professionally installed in about 2 hours

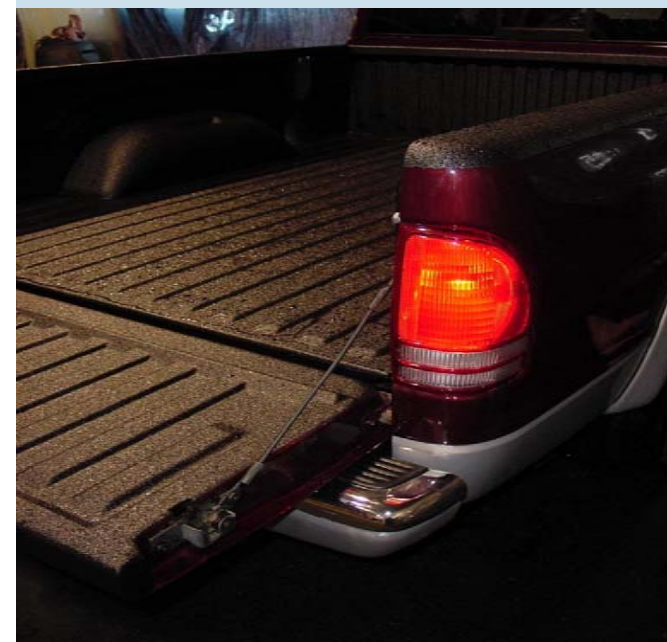

ARMOR LINER combines the right application technology with proper chemicals and mixing ratios to produce the most durable and attractive bed protection system available. Plastic drop-in liners and cold spray applications don't come close to the quality or performance of Armor Liner's heated, high pressure application.

<i>Armor liner Sprayed-on Truck Bed Protection System</i>		<i>Drop-in Plastic Liner</i>
<i>Resists scratches and abrasions</i>	YES	No
<i>Noise and vibration dampening</i>	YES	No
